Fixed rear wall -
tail lift and top flap

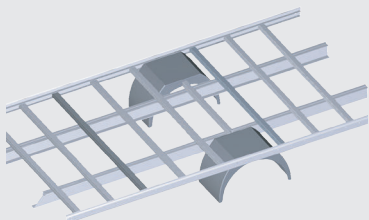

Lashing rings

LED ceiling light

Aluminium or galvanised
steel subframe

Locking handles
with key barrel

Sliding uprights

Speedbox

The ideal product for urban deliveries thanks to its quick sliding side opening. A secured body for several reasons:

- Built-in locking handles with key barrel.
- Load restraint lashing rings and anti-slip floor to secure your goods during transport.

This body is available for chassis up to 6.5T GVW (Gross Vehicle Weight) in various configuration possibilities.

In kit format, the body is designed to reduce assembling times.
